EXPERIENCE

BR TECH SOLUTIONS PVT LTD | HTML Developer   **11/2024 - 02/2025**

- **Projects:** MedBRT, Hospital Management, Eqaaya
- **Industry:** Product-Based Solutions
- **Technology Stack:** HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, React.js, AI Automation
- **Roles and Responsibilities:**
    * Created dynamic and responsive interfaces for multiple in-house products, including healthcare and food service platforms, optimizing user experience across devices.
    * For MedBRT, developed patient dashboards, appointment forms, and real-time reporting screens that improved usability and data visibility for hospital staff.
    * Built reusable components and interactive forms using Bootstrap and JavaScript to speed up development cycles across products.
    * Collaborated with QA and product teams in agile sprints, incorporating user feedback into design improvements and feature enhancements.
    * Integrated payment gateway interfaces with user-friendly prompts, improving checkout efficiency and user satisfaction.

INFRAVEO TECHNOLOGIES PVT LTD | Front-End Developer   **09/2022 - 08/2023**

- **Projects:** Daily Progress Monitoring, SkylineCall Web App, PrintPanda Website
- **Industry:** Organizational
- **Technology Stack:** jQuery, JavaScript, HTML, CSS, Bootstrap, WordPress, SEO
- **Roles and Responsibilities:**
    * Developed a Daily Progress Monitoring System to streamline team task tracking, featuring real-time status updates, visual dashboards, and performance insights.
    * Created the SkylineCall Web App for efficient call center management, integrating user-friendly interfaces, call logging, and lead tracking functionalities.
    * Built the PrintPanda e-commerce platform with a focus on responsive design, product customization options, smooth cart/checkout flow, and order tracking.
    * Integrated PDF generation and export features across platforms, allowing users to instantly download reports, order summaries, and activity logs.
